

Wingman Privacy Policy

Last Updated: 8 July 2026

1. Introduction

Wingman ("Wingman", "the App", "we", "our", or "us") is committed to protecting your privacy and handling your information responsibly.

This Privacy Policy explains what information Wingman collects, how it is used, how it is stored, and your rights regarding your information.

By using Wingman, you agree to this Privacy Policy.

2. Information We Collect

The information collected depends on which features you choose to use.

Information You Provide

Depending on the version of Wingman, this may include:

- imported roster files
- roster history
- manually entered notes
- user preferences
- favourite airports or settings
- subscription status

Current versions of Wingman do **not** require you to create an account.

3. Current Data Storage

At the time of this policy's publication, Wingman stores your information locally on your device.

Roster information, settings and historical data remain under your control and are not transmitted to Wingman's servers.

Removing the application from your device may permanently delete locally stored information unless you have separately backed up your device.

4. Future Cloud Synchronisation

Future versions of Wingman may provide optional cloud synchronisation and backup services.

If cloud synchronisation is introduced:

- participation will be optional unless otherwise stated;
- you will be informed before cloud synchronisation is enabled;
- only the information necessary to provide synchronisation services will be transmitted;
- reasonable security measures will be used to protect stored information.

Cloud services may be provided using third-party platforms such as Google Firebase or similar cloud infrastructure providers.

This Privacy Policy will be updated if additional categories of information are collected or processed.

5. Subscription Information

Premium subscriptions are processed entirely through Apple's App Store.

Wingman does not receive or store your payment card details.

We may receive limited subscription status information from Apple that allows the App to determine whether Premium features are available to your account.

6. Analytics and Diagnostics

Current versions of Wingman may not collect analytics or diagnostic information.

Future versions may collect anonymous or aggregated diagnostic information to:

- identify software bugs;
- improve performance;
- understand feature usage;
- improve reliability.

Where practical, diagnostic information will be anonymised.

You may be able to disable certain analytics features through your device or application settings where applicable.

7. Crash Reporting

Future versions of Wingman may use crash reporting services to identify software errors.

Crash reports may include technical information such as:

- application version;
- operating system version;
- device model;
- crash logs;
- technical diagnostic information.

Crash reports are used solely for improving the reliability and stability of the App.

8. How We Use Information

Information may be used to:

- display roster information;
- calculate duty information;
- calculate estimated pay;
- generate statistics;
- improve application performance;
- provide customer support;
- develop new features;
- maintain Premium subscription functionality;
- provide optional cloud synchronisation.

We do not sell your personal information.

9. Sharing Information

We do not sell, rent or trade your personal information.

Information may only be shared where reasonably necessary to:

- provide cloud synchronisation services;
- process subscriptions;
- comply with legal obligations;
- protect the rights, safety or security of users or the public.

Third-party service providers may include:

- Apple
- Google Firebase (future versions)
- other trusted infrastructure providers

Those providers process information under their own privacy policies.

10. Data Security

We take reasonable steps to protect information handled by Wingman.

However, no electronic storage or transmission method can be guaranteed to be completely secure.

You acknowledge that use of electronic services involves inherent security risks.

11. Data Retention

Locally stored information remains on your device until:

- you delete it;
- you uninstall the App;
- your device removes it.

If cloud synchronisation becomes available, cloud-stored information will be retained only for as long as necessary to provide the relevant services or as required by law.

12. Your Rights

Depending on applicable law, you may have rights to:

- access your information;
- request correction of inaccurate information;
- request deletion of cloud-stored information;
- withdraw consent for optional services;
- request information about how your data is processed.

Requests can be made through the support contact listed within Wingman.

13. Children's Privacy

Wingman is not intended for children under the age of 16.

We do not knowingly collect personal information from children.

If we become aware that personal information has been collected from a child contrary to applicable law, we will take reasonable steps to delete that information.

14. International Data Transfers

If future cloud services are provided, your information may be processed or stored in countries outside your own.

Where required, reasonable measures will be taken to ensure that transferred information receives an appropriate level of protection.

15. Changes to this Privacy Policy

We may update this Privacy Policy from time to time.

The most recent version will always be available within the App or on the official Wingman website.

Continued use of Wingman after changes take effect constitutes acceptance of the updated Privacy Policy.

16. Contact

Questions regarding this Privacy Policy or requests relating to your information may be directed to the support contact listed within the App or on the official Wingman website.
