Last Updated: 7 September 2026

## Ownership

Wingman, including its software, source code, user interface, graphics, icons, branding, logos, documentation, designs and original content, is owned by the developer of Wingman and is protected by Australian and international intellectual-property laws. All rights are reserved.

## Permitted Use

Users receive a limited, non-exclusive, non-transferable licence to use Wingman for personal, lawful purposes in accordance with the Terms of Service. No ownership rights are transferred.

## Restrictions

Except where permitted by law, you must not copy or redistribute Wingman or its assets, reverse engineer or decompile the software, create unauthorised derivative works, remove rights notices, use Wingman branding without permission, or scrape or republish protected App or user content.

## User Content and Data

Users retain ownership of roster information and personal content they provide. Providing content grants Wingman a limited, worldwide, non-exclusive licence to host, copy, transmit, process, format, synchronise and create technical or statistical derivatives only as reasonably necessary to operate, secure, support, analyse and improve Wingman, provide selected sharing or matching features, and carry out uses described in the Privacy Policy.

This licence does not transfer ownership of your raw roster data to Wingman. Aggregated or de-identified statistics created in accordance with the Privacy Policy, and Wingman's software, methods, presentation and independently developed analytics, remain available for Wingman's lawful use.

## Third-Party Intellectual Property

Roster information, airline and airport names, aircraft types, schedules and other third-party material remain the property of their respective owners. Inclusion does not imply endorsement, affiliation or sponsorship. Users must ensure they are authorised to import or share third-party material.

## Feedback

If you voluntarily provide suggestions, feature requests or feedback, you grant Wingman a perpetual, worldwide, royalty-free licence to use that feedback to develop and improve the App without obligation or compensation. This does not authorise publication of personal information submitted with the feedback contrary to the Privacy Policy.
