

Wingman Premium Subscription Terms

Last Updated: 7 September 2026

1. Introduction

These Subscription Terms apply to purchases of Wingman Premium through Apple's App Store and operate in addition to the Wingman Terms of Service and Privacy Policy.

2. Premium Features

Premium may provide advanced roster statistics, enhanced pay calculations, historical analytics, cloud synchronisation, connected-device payslip access and other productivity or connected features. Features may be added, changed, limited or removed as Wingman evolves, and availability can vary by app variant, account type, device, location or App version.

3. Connected Premium Data

Some Premium features use Firebase or other cloud providers to store, synchronise or process account, roster, payslip, profile, device and related information. A selected or authoritative device may determine what information is published to companion devices. The Privacy Policy governs this processing.

Ending Premium access may stop future publication or remove certain cloud bundles, but it does not necessarily delete the Wingman Account or all cloud information. Account and data deletion are handled separately.

4. Billing and Automatic Renewal

Subscriptions are processed by Apple. Wingman does not collect payment-card details. Pricing is shown before purchase and may vary by country or currency. Unless cancelled through your Apple Account settings, the subscription renews automatically at the end of each billing period under Apple's applicable rules.

5. Cancellation and Refunds

You may cancel through your Apple Account settings. Cancellation prevents future renewal but generally does not refund the current billing period unless required by law or Apple's policies. Refund requests are handled by Apple; Wingman cannot issue App Store refunds directly.

6. Availability and Changes

Premium services may be unavailable or delayed because of maintenance, network conditions, third-party outages, device-sync state, security events or software changes. We do not guarantee uninterrupted availability or that a particular feature will remain available indefinitely.

7. Suspension or Termination

We may suspend or terminate Premium services where reasonably necessary, including for misuse, security, legal compliance or breach of the Terms of Service. This does not limit non-excludable consumer rights.

8. Contact

Questions about Premium may be sent to yan.shurunov@gmail.com.
